Dear citizens, NOA Association for Animal Protection Banjaluka is a humanitarian, non-governmental, non-ethnic and apolitical organisation whose main task and goal is animal protection and protection of environment in general. We officially registered in 2006.

General goals are: animal and environment protection, establishing the system of legal protection of animals and follow up of such legal matters, education about responsible handling and treatment of animals, registration of all mistreatments and animal abuse as well as acting in manner of taking all available legal measures to prevent abuse. Building shelters of open type for abandoned animals with full adoption programme as well as follow up after adoption. All shelters are NO KILL type. As citizens we are unhappy that the city authorities pay with our means a dog pound service of the perfidious name “Hygiene service”. Moreover, they even call themselves “City Asylum” but it is actually service of death and just a cover for various scams with most brutal treatment of animals. False presentation and misuse of the name “Asylum” as well as participation in the work of the European Organisation for Animal Rights is not acceptable. We ask for total banning and revision of the work of the so-called “Asylum”. We demand complete analysis of the work, and methods used to solve problems of the street dogs. Citizens have right to know the truth. Citizens do not want their money to be used for financing the dubious projects that imply permanent process of killing the abandoned and street dogs. True solution is at reach of our hand and we just need to apply it. It is why the animal protection societies exist and work. Banjaluka has been city well known by its humanity. Let us make an effort to maintain such image. The work of the Banjaluka dog pound is against ethical values of the overall community.

NOA stands and works for total animal protection. Starting with education, sanctioning the irresponsibles, implementing the registration database, system of search for lost animals, assistance to wounded or otherwise hurt animals, assistance in ecological and other catastrophes. We work at fast pace on inter organizing and international cooperation and education of our cadre as we have announced it for the early Autumn this year. “Noa Diary” is prepared as well. The city authorities have not assisted us so far. In spite of fact that we started several positive initiatives that were never responded by the city authorities. Our primary goal is saving hurt animals, gestating females, puppies and kitten, animals on the roadsides, animals hurt by traffic. We try to save them before the city “Hygiene Service” the so-called “Asylum”. We give such animals assistance in some of our private shelter that are run by active members of our

society NOA (Guerrilla way). When it comes to veterinary assistance, we are aided by veterinarians and veterinary technicians and we are preparing cooperation with the Faculty of Agriculture at Banjaluka University as well as with the Agricultural High School (veterinary section). We are assisted by few private veterinary clinics as well. All animals we take care about are treated well and our volunteers take care of them on daily basis with great responsibility and effort. Some animals are permanently disabled or crippled.

Now, there are 50 dogs and 70 cats in our private shelters on several different locations (maximum capacity) and they all wait for their real, adequate adoption. They wait for you to offer them love and warm home. All puppies are vaccinated and cleaned of parasites.

WE NEED YOUR ASSISTANCE

Our reserves are at the end, and we ask you to help us in food donations (for dogs and cats) or help us in any way that will speed up our actions.

YOU CAN ASSIST IN MANY WAYS

If you love animals and your life circumstances do not allow you to have a pet you can choose and be a sponsor of one animal from our shelters. You can organize visits, bring food, gifts, take care of its health and so on. With your humanity you will present your affection and make possible a survival of an abandoned and betrayed animal until we find it a permanent new home. Make donations! It does not matter if the amount is small. Your donations will help us to keep assisting the animals. Empathy without real action is not sufficient for survival of the animals.

All donation you can pay on accounts as follows: 567-162-19000072-39
